How to upload images for a telemedicine visit on Anytime Pediatrics

Anytime Pediatrics Web Platform

- During the visit details screen, you will be able to upload images before you join the waiting room.
 - Capture a picture of the video preview screen
 - Upload a photo from your device

The screenshot shows the 'Visit Details' step of a telemedicine visit. At the top, there are progress indicators for 'Select Location', 'Visit Reason', 'Visit Details', 'Payment Options', and 'Visit In Progress'. Below the progress indicators, there are two toggle switches for 'Enable Camera' and 'Enable Microphone', both set to 'ON'. A 'Video Preview' window shows a woman's face. Below the video preview, there is a text prompt: 'You should see movement in the green bars below when you speak. If you do not see movement please make certain that you have granted access to your microphone.' Below this prompt is a 'Click to Test your Speakers' button. To the right of the video preview, there is a form titled 'Please provide the following information (Weight is Required)'. The form includes fields for 'Current Weight (lbs)' (with '55' entered), 'Current Temperature (°F)', 'Current Medications', and 'Additional Symptoms'. Below the form, there is a question: 'Would you like to upload a photo for the clinician?'. Below this question are two buttons: 'Capture Photo from Video' and 'Upload Photo'. A yellow arrow points from the 'Capture Photo from Video' button to the right, and another yellow arrow points from the 'Upload Photo' button to the left. At the bottom of the form, there is a disclaimer: 'By clicking the Agree and Enter Waiting Room button, you are agreeing to Anytime Pediatrics PF of Use and providing Consent and Treatment Authorization for Telemedicine Services.'

- Once you have uploaded a photo, you will have the option to add more images or remove images that you uploaded.
- After you have finished adding photos, click Enter Waiting Room.
- Your Pediatrician's office will be able to review the images that you provided.

Anytime Pediatrics Application

- A patient can upload an image before and during their telemedicine encounter if they are using the Anytime Pediatrics App.
- During the visit details screen, you will be able to add images before you join the waiting room.

Visit Details

CURRENT WEIGHT (lbs)

55

CURRENT TEMPERATURE (F) OPTIONAL

CURRENT MEDICATIONS OPTIONAL

ADDITIONAL SYMPTOMS OPTIONAL

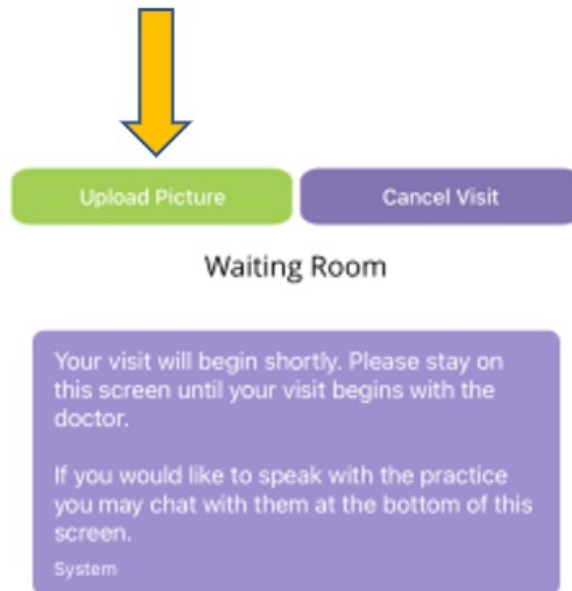

Add photo

CONTINUE

- Once all of your images have been added, click continue to join your pediatrician's virtual waiting room.

Adding Images During the Telemedicine Visit on Anytime App

- To upload a photo during the live telemedicine visit, click on Upload Picture at the top of your screen.

- Adding an image during the visit is easy. After you upload an image, you will get a confirmation message on the bottom of your screen once the phone has been uploaded.

and C Your image was uploaded successfully. END
