

Clinician - How to check your audio and video connection

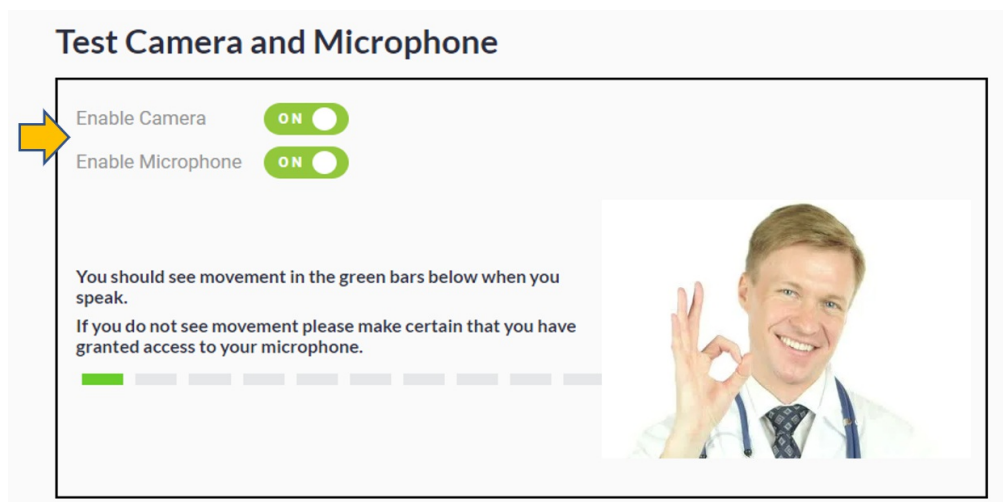

Last Modified on 03/03/2021 1:50 pm EST

How to Check Your Audio and Video Connection

Web Platform

- Log into the Anytime Pediatrics [platform](#) on a Google Chrome web browser.
- Click on your name in the upper right corner.
- You will be able to test your camera and microphone connection in the box on the right hand side.

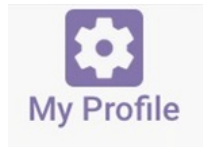

- All other applications that will use the camera (zoom, Skype, etc.) should be closed for your camera to be connected.

Clinician Application

- Log into your Anytime Pediatrics App from your smartphone or tablet.

- Click on the gear icon to access your profile settings.

- Select Test Audio and Video in the upper left corner.
